

Erasmus+ Virtual Exchange

NEWCOMERS AND NATIONALISM: Exploring the Challenges of Belonging in Europe

Who we are: The Sharing Perspectives Foundation specialises in bringing together students and experts from across the globe to learn about current, socio-political issues. We are proud to be an implementer of the first Erasmus+ Virtual Exchange flagship project.

Autumn programme: We invite refugee and non-refugee students from all over Europe and the Southern Mediterranean to join our 10 week programme from **1st October - 7th December 2018**.

In this intercultural exchange you will explore belonging from the perspectives of newcomers in Europe and those moving towards a more nationalistic and anti-European sentiment. Asking: What attracts newcomers to Europe? What makes others want to move away from the European Union?

Stimulated by video lectures from experts, you will exchange ideas and perspectives in an interactive classroom and participate in a video dialogue project that captures voices from *your* community.

Opportunity: In this cultural exchange you will have the opportunity to:

- Encounter students from different countries, cultures and migration backgrounds;
- Meet weekly in small seminar groups in an interactive, virtual classroom;
- Watch bite-sized video lectures by experts;
- Discuss topical themes on identity, diversity and nationalism;
- Conduct interviews for an European-wide Video Dialogue project;
- Improve your English language and communication skills;
- Build '21C transversal skills' that improve your employability, including confidence, resilience, empathy and the ability to work in a virtual and intercultural environment;
- Be awarded an Erasmus+ digital Badge;
- Be the alumni of the 2018 programme - Europe's very FIRST year of Erasmus+ *Virtual* Exchange!

Join the programme: For further information and to register visit:
