Applications deemed admissible will be scored on a scale of 0-100 on each of the following evaluation criteria:

- Criterion A - Quality and relevance of the research project, with the weight of 40%;
Sub-criterion A1. Candidate's academic background, which includes the candidate's field of study and academic grades. In case the candidate has a degree and a master's degree, the classification will be the average between the two degrees; in case the master's has been evaluated qualitatively, an increase of two points will be attributed to the final classification of the 1º degree (restricted to a maximum limit of 20 values). If the candidate has a bachelor's degree, his/her final classification will be considered. The score for this sub-criterion is calculated and applied on the basis of the tables defined in the evaluation guide for the call for PhD scholarships of the Foundation for Science and Technology; with a weight of 20%.

Sub-criterion A2. Quality and relevance of the research project with a weight of 20%.

- Criterion B – Assessment of applicant's Curriculum vitae (20%);

Sub-criterion B1 – Scientific outputs (indicators), including articles and abstracts published in scientific journals, books and book chapters, as well as participation and scientific meetings, with a weight of 10%.

- Criterion C - Interview aimed at evaluating the potential for development and scientific production of each candidate, in the area of Human Motricity or related, with a weight of 40%.

For the purposes of the grant decision, applicants will be ranked according to the weighted average of the classification obtained in each of the three criteria, translated by the following formula:

$$\text{Final Classification} = (40\% \times A) + (20\% \times B) + (40\% \times C)$$

For tie-breaking purposes, candidates will be ranked on the basis of the marks awarded for each of the evaluation criteria in the following order of precedence: criterion C, criterion A, criterion B.

Important notice for applicants with diplomas issued by foreign higher education institutions:
