Admission requirements: Students of 1st Cycle with academic experience in the field of Mathematics.

As set forth FCT Research Scholarship Regulation No. 950/2019 of December 16, 2019, article 5th, candidates for “Research Initiation Scholarship” cannot be awarded to anyone who has already benefited from research grants directly or indirectly financed by FCT, awarded under the terms of the Statute of Research Fellows.

Work plan:

Objectives

- Concept and main properties of Laplace Transforms.
- Laplace Transforms applied to ordinary differential equations
- Convolution and integral equations.
- Systems of ordinary differential equations

Working plan

1. Concept of Laplace Transform
2. Linearity and Translation Theorems
3. Transforms of derivatives, integrals, and ordinary differential equations
4. Dirac’s delta function
5. Convolution and integral equations.
6. Differentiation and integration of transforms.
7. Systems of ordinary differential equations
