# Design Thesis II (Memory) (HIS09393D)

PART 1 : Design Research in Comparative and Transnational History

1. Types of 'design research' : models and examples.

 $2. \ \mbox{Análysis}$  of Practical examples of 'design research'. The ESTER Guideline

PART 2: Development of the design of research and organization and writing by steps the «Thesis memory»

- 1. Overview of PhD study
- 2. Producing an effective working abstract
- 3. Identifying the research problem(s)
- 4. Time management and the writing process
- 5. Getting the most out of the supervision process (a key factor)
- 6. The use of literature and research materials
- 7.Referencing, bibliographic packages and footnoting

8. academic writing and research ethics . Code of ethics of the Historian

9. Maintaining progress and the review process

Part 3. Final presentation of the «Thesis memory» (research design project)

#### Back

# Study Group II (HIS09413D)

The syllabus of this reading and discussion team, it is set annually by students' choices.

Even though accompanied in its construction and completion by team teaching, the plan of this reading and discussion group is designed, organized and performed by doctoral students themselves around the themes of this study program. Although accompanied in its construction and implementation by teaching team, with the support of supervisors, this "Forum" is designed, organized and performed by doctoral students around one or up to three "specialized" study groups (one for each thematic area reference of this program). Each student should suggest at least two titles (books, articles, working papers) for such a plan

#### Back

### Transdisciplinary Seminar II (HIS09414D)

The seminar plan is annually determinate by the coordinator team (the Directors of PhD Programs) of the "Interdisciplinary Seminar in Contemporary Historical, Political and Social Studies of Évora".
