3. Program description:

This Master's program aims to train specialists capable of providing an adequate response to the needs associated with the practice of psychomotricity in its various fields of intervention throughout the life cycle. The theoretical knowledge and practical skills that allow the understanding of the influence of the psychomotor practice in the therapeutic, preventive, re-education and development aid field are deepened. The Master in Psychomotricity concludes with the Master's Dissertation or with Internship and respective Internship Report. The internship is only available for the students with the 1st Cycle of Psychomotor Rehabilitation, attributing the recognition of functions and competencies of Specialist Psychomotrician, by the Portuguese Association of Psychomotricity.

4. Career opportunities:

Given the interdisciplinary training offered by this master program, students will be able to develop psychomotor interventions of therapeutic, preventive, re-education and development aid. It is worth mentioning the intervention in kindergartens and day care centers, inclusion resource centers, institutions for the support of people with disabilities or groups at risk of social exclusion, homes and day centers for the elderly, and specialized institutions (including hospitals and clinics) in the field of neurodevelopment and mental health for children and adolescents and for adults.

8. General conditions of access and admission:

i Legal conditions for access to the cycle of studies leading to the master degree

The following individuals can apply for a cycle of studies leading to the master degree:

- holders of a Portuguese Licenciado degree or legal equivalent;
- holders of a foreign higher education undergraduate degree, which is recognized as satisfying the objectives of the degree of Licenciado by the competent scientific committee of the higher education institution where they wish to be admitted;
- holders of an academic, scientific or professional curriculum which is recognized as attesting the ability to carry out this cycle of studies by the competent scientific committee of the higher education institution where they wish to be admitted.

ii Conditions of access to the cycle of studies at the University of Evora

On the application date, the undergraduate students must satisfy conditions that guarantee the conclusion of their undergraduate degree until the 30th of October of the admission year. The admission and enrollment of these students is conditioned on the conclusion of the degree until this date, and the enrollment is canceled if the student does not complete the degree within that period.

During the first application phase, students who have a maximum of 6 curricular units or 36 ECTS missing for conclusion of their degree can apply for the 2nd cycle; in the 2nd application phase students can apply if they have at most 3 curricular units missing and in the 3rd application phase if they have at most one curricular unit missing.

The previous condition does not apply to students with a curriculum that reveals professional or scientific experience, which can be recognized by the competent scientific body, as attesting the student's ability to carry out the master's degree/post-graduation, provided that the student required that recognition in the application process.
