Applications for Admission to the Ph.D. Program in
Interdisciplinary Management of Landscape
Academic year 2022/2023

1. The program is promoted by:

Universidade de Évora - Instituto de Investigação e Formação Avançada
Universidade dos Açores
Universidade de Lisboa - Instituto Superior de Agronomia

2. Study program in Consortium:

- a. **Type of Consortium:** National
- b. **Type of Consortium:** Diploma to be awarded jointly by all the partner institutions, under the terms of article 42 of Decree-Law no. 74/2006, dated March 24 in its current republication
- c. **Type of Agreement:** Distribution of applications (all partner institutions receive applications and the enrollment is distributed among all the partner institutions)

d. **Coordinator Institution:** Universidade de Lisboa - Instituto Superior de Agronomia

e. **Partner Institutions:**

- Universidade de Évora
- Universidade dos Açores
- Universidade de Lisboa - Instituto Superior de Agronomia

f. Universidade de Évora

- **Applications:** Information available on the Institution's website

g. Universidade dos Açores

- **Applications:** Information available on the Institution's website

h. Universidade de Lisboa - Instituto Superior de Agronomia

- **Applications:** Information available on the Institution's website

i. **Executive Program Committee:**

Professor Teresa Pinto Correia, Universidade de Évora

Professor José Lima Santos, Universidade de Lisboa

Professor Paulo Borges, Universidade dos Açores

3. Program description:

The purpose of the proposed study cycle is to develop methodologies and capabilities to scientifically support the design and evaluation of public policies and management tools that can contribute to meeting the growing demands of society on multiple goods and services (recreation, biodiversity, water, carbon sequestration, bioenergies, etc.) from land use and occupation. Trade offs and complementarities between these goods and services require interdisciplinary developments integrating a variety of scientific fields, such as ecology, agronomy, economics, sociology, geography, political science and ethics. There are already fields of interdisciplinary research of this type in approaches such as landscape ecology, conservation biology, ecological economics and regional science, but more work is needed to integrate the various approaches in order to progress in terms of conceptual and solutions to implement.

4. Career opportunities:

With the conclusion of the study cycle in Interdisciplinary Landscape Management, students will be able to develop methodologies that integrate disciplinary paradigms whose object of analysis is Man and the Environment. In particular, it is intended that students are able to learn, adapt and create methodologies to: evaluate goods and services supported by the landscape, design and evaluate policies for land use; propose and substantiate decision support instruments; understand social practices and perceptions, and the social construction of land use; develop spatial models that integrate the environment, technology, economics and regulation.

5. Number of registration at DGES:

R/A-CR-184/2010

6. Number of accreditation process by A3ES:

ACEF/1920/0901782

7. Program Creation Norm:

Diário da República n.º 10 de 14 de Janeiro de 2011, Despacho n.º 1339/2011

8. General conditions of access and admission:

i Legal conditions for access to the cycle of studies leading to the «Doutor» degree (Ph.D. degree)

The following individuals can apply for a cycle of studies to the «Doutor» degree (Ph.D. degree):

- holders of a Portuguese Mestre degree (Master degree) or legal equivalent;;
- holders of an undergraduate degree holding a specially relevant academic or scientific curriculum, which is recognized as attesting capacity to carry out this cycle by the competent scientific committee of the higher education institution where they wish to be admitted;
- holders of an academic, scientific or professional curriculum that is recognized as attesting the ability to carry out this cycle of studies by the competent scientific committee of the higher education institution where they wish to be admitted.

ii Specific admission conditions

Pre-Bologna Licentiate Degree or Post-Bologna Master's Degree in a scientific domain related to doctoral areas

9. Selection Process:

- Academic qualifications: 50%
 - Weighted average (1st cycle and 2nd cycle ECTS, weighting based on ECTS completed in each cycle): 60%
 - Level of qualifications: 20%
 - Area of qualifications: 20%
- Curriculum analysis: 50%
 - Participation in research projects: 40%
 - Scientific publications: 40%
 - Professional Experience in the area of the program or related fields: 20%

10. Maximum number of admissions

- Maximum number for admission: 10

11. Tuition fee

- Tuition fee: 1250.00 €

12. Organization / duration:

- a. **Duration of the program:** 6 semesters
- b. **Number of ECTS to obtain the degree:** 180
- c. **Number of ECTS to obtain the doctorate course (conclusion of the curricular part):**
30

13. Language (s) of teaching:

- Portuguese

14. Learning Type

Presential

15. Schedule Type

Labor hours

16. Classes schedule (week days and schedule)

For the compulsory units (2 units x 6 ECTS each), 4 intensive modules with classes 9h00-12h30 e 14h00-17h30. When the number of student is lower than 4, the organization of the courses is tutorial and therefore more flexible, upon accordance between teachers and student.

For the optional units, the student will be able to opt from a wide range of existing courses in the partner institutions. They can also select other units ? to be agreed with the Scientific Board.

17. Program starting date

November of 2022

March 21, 2023
The Rector

Hermínia Vasconcelos Vilar
