3. Program description:

This master's degree establishes a close relationship between three fundamental pillars of any educational system: teaching, pedagogical supervision and educational evaluation. The study programme is designed on the basis of a holistic perspective of pedagogical supervision in articulation with educational evaluation/assessment and the teaching and learning process. The teaching process is seen in articulation with pedagogical assessment and learning.

Thus, this study programme is intended, fundamentally, to provide additional specialized training, supported by research, to educational agents who, in particular, exercise functions of coordination, supervision and evaluation in intermediate structures of kindergartens, primary and secondary schools and other valences of the educational system. As a result, it seeks to provide the regional and national education system with teacher trainers, pedagogical supervisors and evaluators to intervene, as teachers in education and teaching establishments, in their own self-training and in the initial and continuing training of teachers.

4. Career opportunities:

The coordination of structures of an educational nature, the coordination of training and, in particular, the guidance and supervision of the initial and continuing training of educators and teachers.

8. General conditions of access and admission:

i Legal conditions for access to the cycle of studies leading to the master degree

The following individuals can apply for a cycle of studies leading to the master degree:

- holders of a Portuguese Licenciado degree or legal equivalent;
- holders of a foreign higher education undergraduate degree, which is recognized as satisfying the objectives of the degree of Licenciado by the competent scientific committee of the higher education institution where they wish to be admitted;
- holders of an academic, scientific or professional curriculum which is recognized as attesting the ability to carry out this cycle of studies by the competent scientific committee of the higher education institution where they wish to be admitted.

ii Conditions of access to the cycle of studies at the University of Evora

On the application date, the undergraduate students must satisfy conditions that guarantee the conclusion of their undergraduate degree until the 30th of October of the admission year. The admission and enrollment of these students is conditioned on the conclusion of the degree until this date, and the enrollment is canceled if the student does not complete the degree within that period.

During the first application phase, students who have a maximum of 6 curricular units or 36 ECTS missing for conclusion of their degree can apply for the 2nd cycle; in the 2nd application phase students can apply if they have at most 3 curricular units missing and in the 3rd application phase if they have at most one curricular unit missing.

The previous condition does not apply to students with a curriculum that reveals professional or scientific experience, which can be recognized by the competent scientific body, as attesting the student's ability to carry out the master's degree/post-graduation, provided that the student required that recognition in the application process.
